

East/West Connection

Penfield/Webster/19th Ward Area Child Care Provider Support Group

The East/West Connection is a group of dedicated providers from the Penfield/Webster/19th Ward area that have formed a support group. Some of our goals are to encourage one another, make group decisions, participate in relevant trainings chosen as a group, and develop friendships while maintaining confidentiality. We also work together as a group to discuss our different curriculums, social and emotional needs, and to respect and enhance each others programs.

The East/West Connection meets the first Monday of each month. For more information please call:

Linda - Co-Leader

Upcoming Events

"Great news about upcoming training. Linnea Moran -- a former software writer -- has offered to do computer usage training at our September 10th meeting. She would like to know in advance what your specific training needs are so she can prepare in advance. For example, one person has already expressed a need to learn how to check and send e-mails, another how to register at the 292-Baby Web site, and two others about how to use spreadsheets. Are there any more requests?"

"More good news. At our October 1st meeting, Meredith Paris -- a kindergarten/1st grade teacher -- will speak to us about kindergarten readiness and will try to answer any other questions we might have. We will be working to a 9 pm finish time."
